

GAGANDEEP RASTOGI

gagandeep100@gmail.com | +91-6394099459 | Noida, India |

SUMMARY

Software Engineer with expertise in building scalable cloud applications using Java, JavaScript, React.js, and Node.js. Proficient in REST API design, OOP, SOLID principles, unit testing, and test automation. Demonstrated ability to solve complex problems and collaborate across teams to deliver customer-centric enterprise software. Solved 300+ coding problems across competitive programming platforms; seeking to contribute to cloud-based CRM and AI platforms.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python

Frontend: React.js, HTML5, CSS3, Responsive Design, REST API Integration

Backend: Node.js, Express.js, RESTful APIs

Databases: MySQL, PostgreSQL, MongoDB, Query Optimization

Tools & Platforms: Git, GitHub, Version Control, Postman, Vercel, Render, VS Code, IntelliJ IDEA, Linux

CS Fundamentals: DSA, OOP, System Design, Design Patterns, SOLID, Test Automation, Computer Networks, DBMS, Operating Systems

Exposure: AWS, CI/CD Concepts, DevOps, Agile/Scrum

EDUCATION

Bachelor of Technology — Computer Science & Engineering

2022 - 2026

Galgotias University, Greater Noida, UP **CGPA: 8.72/10**

PROJECTS

Job Portal — Web Application

April 2025 - Present

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, REST APIs

- Engineered modular RESTful backend with SOLID principles and MVC pattern, reducing code complexity by 40%
- Integrated JWT authentication and RBAC supporting 3 user roles for secure, scalable workflows
- Delivered responsive React.js UI with 10+ reusable components, compatible across 5 major browsers
- Documented API with Postman; achieved 80% code coverage through unit and integration tests

Digital Bookshelf — Interactive Web Application

Dec 2024 - Jan 2025

Tech Stack: HTML5, CSS3, Vanilla JavaScript, localStorage

- Built dynamic search with multi-filter capability achieving O(n) time complexity for 500+ book entries
- Leveraged localStorage to persist user data across sessions with 100% mobile and desktop responsiveness
- Designed intuitive UI/UX reducing user navigation time by 30% using vanilla JavaScript

AI Credit Risk Scoring System

Feb 2025 - Apr 2025

Tech Stack: Python, Scikit-learn, Pandas, NumPy, Matplotlib

- Developed ML classification model to predict credit risk achieving 85% accuracy on test dataset
- Executed end-to-end data preprocessing, feature engineering and exploratory data analysis on 10,000+ records
- Evaluated Logistic Regression, Random Forest and Decision Tree models; visualized ROC curve and feature importance

EXPERIENCE

Network Security AssociateFortinet

Oct 2024 - Dec 2024

- Configured firewall rules and intrusion prevention systems protecting 100+ node simulated networks
- Analyzed network traffic and formulated security policies reducing threat exposure by 30%
- Hardened multi-tier networks applying zero-trust architecture principles across 5+ lab environments

ACHIEVEMENTS & CERTIFICATIONS

- Solved 300+ coding problems on LeetCode, Codeforces, CodeChef and CSES covering Arrays, DP, Graphs and Trees
- Completed 50+ SQL problems on LeetCode and HackerRank covering joins, subqueries and window functions
- Awarded 5th place at IEEE Hackathon for Rakshanam, a real-time personal safety system
- Certified by Palo Alto Networks in cybersecurity fundamentals and threat mitigation
- Earned Salesforce Trailhead Developer Fundamentals badge with exposure to Apex and LWC
- Completed Oracle Database Programming SQL certification
